Fingerprint   Digital Password   RFID Tag   6-Pin C4 Key Override

APP   Remote Authorization   Smart Alarm   Battery Powered   Powerful CPU

Technical Parameter

Items	Parameters
Product color	black, bronze
Product material	Aluminum alloy
Fingerprint sensor	Semiconductor
Typical quiescent current	> 55 microamps
Working current	> 280 mA (strong driving capability)
Fingerprint storage capacity	100
Password storage capacity	100
Card storage capacity	100
Number of door opening remote controls	30
Opening method	fingerprint, password, card, mechanical key
Resolution	500DPI
Rejection rate	0.15%
False recognition rate	0.00004%
Power supply type	4 AA batteries
Emergency power supply	USB charging
Working temperature	-10-60 (℃)
Relative temperature	20%～93%
